

7. To demonstrate the use of atexit() function

```
/* C program to demonstrate the use of atexit() function */
#include <stdio.h>
#include <stdlib.h>
void out (void)
{
    printf ("atexit() succeeded!\n");
}
int main (void)
{
    if (atexit (out))
        fprintf(stderr, "atexit() failed!\n");

    return 0;
}
/*
shubham@shubham:~/Documents/C Programs$ gcc 7atexit.c -o test
shubham@shubham:~/Documents/C Programs$ ./test
atexit() succeeded!
*/
```
